

Semi-hermetic Condensing Unit

Blue Skyline Series

Global Cold Chain Experts

Company Profile

Headquartered in Farmington, Connecticut, USA, Carrier Corporation is the world's largest provider of heating, air conditioning and refrigeration solutions, with operations in 172 countries and regions. Its parent company United

Technologies Corporation (UTC) is a global company with operations in over 170 Countries and with revenues of over US\$42.7 billion in 2005 and was ranked 126th in the 2006 Fortune Magazine Top 500 Companies.

As one of the leading global cold chain experts, Carrier Commercial Refrigeration is dedicated to being the global brand leader in offering our customers a complete package of quality equipment for a variety of industry needs. As Carrier's largest research and development investment in Asia to date, Carrier China R&D center provides strategic and to carrier Asia to become the leader in the Refrigeration industry through technology development and innovation. We take pride in providing optimized turn-key solutions to our customers. Our comprehensive and reliable products will provide the best-cost solution to minimize upfront investment costs as well as to ensure energy efficiency.

& Additional Offering

Technical Advantages

- No machine room, easier installation.
- Saving installation cost and smaller installation space.
- Easier maintenance and lower maintenance cost
- Vary application on supermarket, C-store, cold room, food processing and precooling.

With the integration of industry-leading Carrier 06E/06CC compressor and remarkable surplus condensation design, Carrier CDU ensures the reliable performance in a wide-range operation condition, which is more adaptive for Asian circumstance.

High energy efficiency and widely application, Carrier CDU can reliably operate under the evaporating temperature from 4°C to -50°C.

Patented shock-absorption design and damping device contribute to lower noise and shake. Mounted innovative functional devices and protectors ensure the safely operation while temperature influence and necessary long piping application.

Compressor protection & alarm: high discharge temperature protection, oil pressure control, high pressure control.

Standard Components

For all models: Compressor, Crankcase Heater, High discharge temp. protection, H/L Pressure Gauge, Oil pressure switch, H/L Pressure control, Vibration absorber(discharge line), Condenser, Fan, Receiver, Safety valve or Fusible plug, Dry filter, Sight glass, Liquid Line Shut-off Valve, Control box

For LT 1 stage: Oil separator, Solenoid valve,

For LT 2 stage: Oil separator, Solenoid valve, Subcooler, Accumulator, Vibration absorber(suction line)

Nomenclature

C	Carrier CDU C-Semi-hermetic Recips CDU, 50Hz C6-Semi-hermetic Recips CDU, 60Hz
